

Application Processor

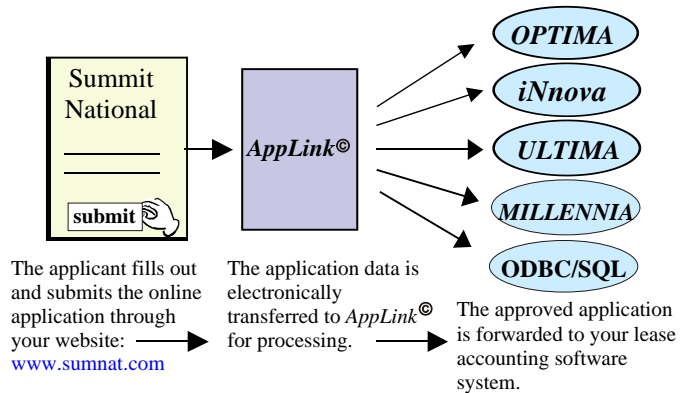

AppLink®, Summit National, Inc's web-enabled Application Processor provides a complete system for tracking leases in process. Document processing along with comprehensive vendor, broker, salesperson, and funding source information allow for easy management of lease applications. Distributed processing lets many users contribute information for an individual credit workup. A customizable document processor is included to print application information on almost any lease document. Historical sales results are also available within this system.

Functions and Major Uses

- * Process lease applications securely, quickly, and effortlessly
- * Organize application data by client, vendor, and funding sources
- * Receive lease applications via phone, fax, and internet and input the information once
- * Maintain approval rates for both vendors and funding sources
- * Track turn-around time for approval & funding
- * Prepare professional application packages for presentations to funding sources
- * Print customized lease documents
- * Maintain vendor volume information
- * Maintain salesperson commissions and lease volume
- * Process credit checks for multiple applications in one sitting
- * Transfer approved applications to any Lease Accounting back-end system
- * Maintain approval rates by vendor, broker, salesperson and funding source
